Professional Profile

Recent Software Development graduate with hands-on experience building full-stack applications using modern technologies including React, Node.js, and Python. Proven ability to collaborate in agile teams, develop scalable systems, and deploy cloud-based solutions using Docker and AWS. Strong problem-solving skills with a focus on performance optimization and user-centered design. Seeking an entry-level software development role where I can contribute to innovative projects and continue developing technical expertise.

Technical Skills

- Languages: Python, JavaScript, C, C++, HTML/CSS, SQL
- Frameworks & Libraries: React, React Native, Next.js, Express.js, Node.js, Django
- Tools & Platforms: Git, GitHub, VS Code, Visual Studio, Docker, Kubernetes, AWS, Microsoft SQL Server
- Databases: MongoDB, SQL

Professional Profile

Independent Contractor

Outlier | Canada

Dec 2025 – Feb 2026

- Analyzed and annotated image datasets by identifying objects, spatial relationships, and timelines
- Contributed to improving AI model training through accurate data labelling and validation
- Recorded structured scripts to support user prompt development

Development Intern

Human City | Toronto, ON

Jan 2025 – Apr 2025

- Collaborated with a cross-functional team to develop mobile front-end applications
- Built and tested features across multiple layers of the stack, including frontend and backend
- Contributed to code reviews and enhanced existing features developed by other teams
- Worked with modern frameworks and tools in an agile development environment

System Development Engineer Intern

Kubetools Technologies Inc. | Brampton, ON

May 2024 – Aug 2024

- Designed and implemented Python-based algorithms to improve web application performance
- Developed backend solutions using AWS to enhance data processing and frontend responsiveness
- Deployed and managed containerized applications using Docker
- Participated in agile ceremonies, providing progress updates and collaborating on solutions
- Monitored and optimized recommendation systems in production environments

General Labor

Reliable Logistics | Mississauga, ON

Aug 2023 – Dec 2023

- Handled loading and unloading operations efficiently in a fast-paced warehouse environment

Picker/Packer

Genumark | Toronto, ON

Dec 2021 – Jan 2022

- Processed inventory orders accurately as part of a two-person fulfillment team

Projects

Car Dealership Platform

MongoDB, Express.js, React, Node.js, Docker, Kubernetes, Django, Python

Jan 2026

- Implemented Django views to retrieve and manage dealership data
- Deployed a full-stack application using Docker containers and Kubernetes

- Integrated backend services with MongoDB for efficient data handling

Personal ePortfolio Website: <https://lwin-eportfolio.onrender.com/>

React, Node.js, Express.js, REST API

Oct 2025 – Dec 2025

- Developed a responsive personal website showcasing projects and experience
- Built a REST API to handle contact form submissions
- Deployed application using a cloud platform (Render)

Fragments Microservice Project

Node.js, AWS EC2, Docker, CI/CD

May 2025 – Aug 2025

- Built backend APIs to handle requests and responses in a microservice architecture
- Deployed services on AWS EC2 instances
- Implemented CI/CD pipelines and automated testing

N.E.A.R Security Alert App

React Native, Firebase

Feb 2024 – Mar 2024

- Developed a mobile app to notify users of nearby incidents
- Implemented authentication and real-time alerts using Firebase
- Translated UI designs into a functional cross-platform application

Capstone Project – Bike Shop: <https://capstone-fe-rouge.vercel.app/>

MongoDB, Express.js, React, Node.js

Feb 2024 – Dec 2024

- Built a full-stack web application following SDLC best practices
- Coordinated team tasks and tracked project progress
- Managed deployment and reporting

Community Involvement

Volunteer

Christie Ossington Neighbourhood Centre | Toronto, ON

Jun 2022 – Aug 2022

- Assisted in food preparation and service for community members

Education & Certifications

- Honours Bachelor of Technology – Software Development
Seneca Polytechnic | Toronto, ON 2025
- Housing Hackathon Finalist 2024
- Software Development Scholarship Award 2023
- Leadership Development Certificate – Risk Within Above 2023
