SUMMARY

Recent Software Development graduate with hands-on experience in Python, JavaScript, and SQL. Developed and tested web applications using modern frameworks, with a focus on functionality and clean user interfaces. Comfortable working in team environments and applying problem-solving skills to build reliable software solutions.

EDUCATION

SENECA POLYTECHNIC

Cumulative GPA: 3.2/4.0

Newnham, Ontario

Honours Bachelor of Technology – Software Development

Jan 2021 – Aug 2025

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, C/C++, SQL
- **Frontend:** HTML/CSS, JavaScript, React, React Native, Next.js
- **Backend:** Express.js, Node.js, Django
- **Database:** MongoDB, Microsoft SQL Server
- **Tools & Development Environment:** Visual Studio Code, Visual Studio, Git, GitHub

WORK EXPERIENCE

PROJECT: HUMAN CITY

Toronto, Ontario

Development Intern

Jan 2025 – Apr 2025

- Developed front-end mobile apps with a larger team.
- Developed, tested, and implemented development projects in designated frameworks.
- Specialization can range from a position in stack and the associated technologies in frameworks such as: Frontend, Backend, Middleware, Database, A.I., Systems, Maps.
- Elaborated on other code work from different teams

KUBETOOLS TECHNOLOGIES INC.

Brampton, Ontario

System Development Engineer Internship

May 2024 – Aug 2024

- Designed and developed recommended algorithms using Python to improve web page performance.
- Communicated with supervisor in weekly scrums to report updates on applications using Docker Desktop implemented with MUI.
- Developed and optimized data collection by implementing the back-end side in AWS to improve front-end functionality.
- Monitored, troubleshoot, and optimized recommendation systems in production environments
- Stayed up to date with the latest trends and advancements in cloud and containerization

PROJECTS

CAR DEALERSHIP | *MongoDB, Express.js, React.js, Node.js, Docker, Kubernetes, Django, Python*

- Implemented the missing code for Django views on fetching data on dealers.
- Used Docker to run a MongoDB container to fetch data on the back end.
- Used Kubernetes to deploy the full stack.
- Used a code engine for sentiment analysis.

PERSONAL EPORTFOLIO | *Express.js, React.js, NodeJS, REST API, Render.com*

- Implemented a one-page website that contains information about me, my education, and projects.
- Implemented a simple REST API only to send messages to email.

- Learned some CSS styles to make the website more interactive with animation effects.
- Learned how to adjust the components in the website when viewing it in device mode.
- Deployed the website in a cloud application platform called Render.

FRAGMENTS MICROSERVICE PROJECT | *HTML, AWS Cognito, ES2, Docker, curl, Node.js, CI/CD*

- Implemented on the Backend for requests and responses with the API.
- Creating instances of the Backend Implementation with Amazon EC2.
- Created Docker Images using Docker for testing backend functionality.
- Implemented CI and CD using unit tests and git patch versions.

N.E.A.R (SECURITY ALERT APPLICATION PROJECT) | *React-Native, Expo, Firebase*

- Participated in the Seneca Hackathon 2024
- An application that sends users alerts about incidents occurring in their neighbourhood.
- Implemented for Android and iOS
- Converting UI design from wireframe to a working app.
- Integrated Authentication and Authorization implemented with Firebase
- Implemented the full functionality based on the designed User Interface from Figma

DATA STRUCTURE AND ALGORITHM WITH C++ | *C++, Visual Studio Code*

- Implemented code on search algorithms, sorting, and leaping algorithms.
- Implemented code on using different dependencies for different data types.

C++ OBJECT-ORIENTED PARADIGM | *C++, Visual Studio Code*

- Implemented the code with different data types as properties.
- Implemented code related to Polymorphism, Inheritance, abstraction, and encapsulation.

AWARDS/CERTIFICATES

- University of Toronto Dependent Scholarship (2024-2025)
- Housing Hackathon – Finalist (2024)
- Software Development Scholarship Award (2023)
- Youth Rising Above – Leadership Development Certificate (2023)

INTERESTS

- Zumba Fitness
- Black belt second dan in taekwondo
- Automotive Mechanic
- Music Production: BGC St. Alban's Club
